Session (2010-2011)   50%

PROJECTS

LANDING PAGE

- I had the opportunity to create an impressive landing page, enabling me to refine my user interface design skills while reinforcing essential concepts.

- Technology used- **HTML, and CSS** used for front-end development**.**

PORTFOLIO

- It allows me to showcase my work professionally through a portfolio, honing my ability to effectively present projects and achievements.

CALCULATOR

- creating a basic calculator using CSS, HTML, and JavaScript. It should have a display screen to show user input and results.
- The engaging modern calculator project presentedintricate challenges that not only boosted my technicalcompetencies but also ignited my creativity and logical thinking.
